# ADHESIVES, SEALANTS & TAPES

Bonding, sealing, mounting, repair, and surface-protection solutions for professional applications.

# ADHESIVES, SEALANTS & TAPES

Adhesives, sealants, and tapes are used across installation, weatherproofing, repair, finishing, mounting, maintenance, and surface protection. Sigma Traders USA organizes sourcing across core product families for contractors, facilities teams, retailers, and qualified ecommerce accounts. Product choice depends on the materials being joined or sealed, surface condition, environment, movement, temperature, cure requirements, color, packaging, and intended service conditions. Buyers should provide application details rather than relying only on a general product category.

| PRIMARY AUDIENCES                                                                                                                                     | ADDITIONAL ELIGIBLE AUDIENCES                                                                                                                                  |

Also available for qualified business accounts, subject to product and channel eligibility.

# ADHESIVES, SEALANTS & TAPES

## Construction Adhesives

Cartridge, tube, or container-based bonding products for construction materials, panels, trim, fixtures, wood, masonry, metal, and other supported substrates.

---

## Silicone and Specialty Sealants

Sealants for joints, gaps, glazing, weatherproofing, kitchens, bathrooms, construction, maintenance, and other supported environments. Selection may depend on substrate, movement, temperature, exposure, color, and cure characteristics.

---

## Mounting and Double-Sided Tapes

Tapes for mounting, attachment, assembly, signage, fixtures, trim, and other supported applications. Product requirements may include width, thickness, adhesive type, substrate, holding conditions, and indoor or outdoor use.

---

---

## PRODUCT FAMILIES

# ADHESIVES, SEALANTS & TAPES

## Duct and Repair Tapes

General-purpose, reinforced, repair, sealing, bundling, and temporary-fix tapes for jobsite, workshop, facility, and maintenance use.

---

## Surface-Protection Tapes

Tapes used for masking, temporary protection, painting, finishing, transport, and construction processes. Surface sensitivity, adhesion period, removal requirements, and exposure should be considered.

---

## Application and Dispensing Accessories

Sealant guns, applicators, nozzles, mixing accessories, scrapers, and related products used for controlled application and finishing.

---

## TYPICAL APPLICATIONS

- Construction bonding
- Joint and gap sealing
- Weatherproofing
- Mounting and attachment
- Repair and maintenance
- Painting and finishing
- Surface protection
- Packaging and temporary securing

## Information Helpful for a Quote

- Product family - Materials or surfaces involved - Indoor or outdoor application - Temperature, moisture, movement, or exposure conditions - Color and cure requirements - Cartridge, tube, roll, pail, or other format - Dimensions or volume - Estimated quantity - Destination and required timeframe
