# FASTENERS & ANCHORS

Professional fastening solutions for construction, installation, maintenance, and commercial applications.

# FASTENERS & ANCHORS

Fasteners and anchors form the connection points behind structural work, installation, assembly, repair, and finishing. Sigma Traders USA organizes quote-based sourcing across core fastening families for professional buyers requiring dependable product identification, suitable materials and finishes, practical order formats, and clear commercial documentation. Our category scope covers general-purpose and application-specific products used in concrete, wood, metal, masonry, fixtures, equipment, and building components. Requested specifications, quantities, pack requirements, availability, and delivery terms are reviewed during the quotation process.

| PRIMARY AUDIENCES                                                                                                                                         | ADDITIONAL ELIGIBLE AUDIENCES                                                                                                                                      |

# FASTENERS & ANCHORS

## Concrete and Expansion Anchors

Mechanical anchoring products for fastening fixtures, brackets, equipment, and structural components to concrete or masonry. Product selection may depend on base material, loading conditions, embedment, diameter, installation method, and environmental exposure.

---

## Structural and General-Purpose Screws

Screws for framing, decking, construction assembly, installation, repair, and general fastening. Available requirements may include head style, drive type, thread design, length, material, coating, and intended substrate.

---

## Hex Bolts, Nuts, and Washers

Matched fastening components for mechanical assembly, mounting, equipment, structural connections, and maintenance operations. Quotations can be organized around dimensions, grade, thread, finish, quantity, and packaging.

---

---

## PRODUCT FAMILIES

# FASTENERS & ANCHORS

## Threaded Rods and Associated Hardware

Threaded rods, coupling components, nuts, washers, and related hardware used for suspension, bracing, support systems, mounting, and construction assemblies.

---

## Specialty Anchors and Fastening Systems

Application-specific anchors, toggle systems, hollow-wall fasteners, specialty screws, mounting components, and related fastening solutions for projects that require more than a standard general-purpose fastener.

---

## TYPICAL APPLICATIONS

- Concrete and masonry anchoring
- Framing and decking
- Bracket and fixture installation
- Equipment and mechanical mounting
- General construction assembly
- Maintenance and repair
- Commercial building installation
- Workshop and facility operations

## Information Helpful for a Quote

For faster review, buyers should provide as much of the following as possible:

- Product description or manufacturer part number
- Fastener or anchor type
- Diameter and length
- Thread specification
- Material, grade, or finish
- Intended base material or application
- Estimated quantity
- Delivery destination and required timeframe

### Available Order Formats

Available order formats may include individual units, inner packs, boxes, cases, assortments, or pallets, depending on the product and supplier requirements.

## Important Commercial Notes

Product availability, brand eligibility, pack requirements, pricing, lead times, technical documentation, and permitted sales channels are confirmed according to the requested item and available supply route.

### Related Categories

- Construction Hardware
- Power Tool Accessories
- Adhesives, Sealants & Tapes

### Request a Fasteners & Anchors Quote

Send us the required product type, specifications, quantity, and destination. We will review available commercial options and respond with the information needed to evaluate the order.
