HAND TOOLS

Reliable tools for fastening, measuring, cutting, striking, gripping, and professional assembly.

HAND TOOLS

Hand tools remain essential across construction, installation, workshop, retail, facility, and maintenance environments. Sigma Traders USA organizes sourcing across practical tool families used for daily professional work and commercial resale. Quotations may cover individual tools, coordinated assortments, sets, counter-ready products, or case-pack requirements. Product details such as size, material, handle style, measurement range, finish, and set composition are reviewed according to the requested application.

PRIMARY AUDIENCES	ADDITIONAL ELIGIBLE AUDIENCES
• Construction Contractors & Skilled Trades • Independent Hardware Retailers & Specialty Dealers • Qualified Ecommerce & Marketplace Resellers	• Facilities, Maintenance & Commercial Buyers

Also available for qualified business accounts, subject to product and channel eligibility.

HAND TOOLS

Striking Tools

Hammers, mallets, and related striking tools for framing, installation, demolition, finishing, and workshop use. Selection may depend on head type, weight, handle material, balance, and intended application.

Wrenches and Fastening Tools

Adjustable wrenches, combination wrenches, socket-related hand tools, ratcheting tools, and other products used for tightening, loosening, installation, and maintenance.

Pliers and Cutters

Combination pliers, long-nose pliers, diagonal cutters, locking pliers, and specialty gripping or cutting tools. Requirements may include jaw style, cutting capacity, length, handle design, and insulation or certification where applicable.

Screwdrivers

Individual screwdrivers, multi-bit drivers, precision drivers, and sets for installation, maintenance, repair, and assembly. Product identification should include drive type, tip size, shaft length, and set composition.

PRODUCT FAMILIES

HAND TOOLS

Utility Knives and Cutting Tools

Utility knives, replacement blades, scrapers, and related manual cutting products for packaging, construction materials, finishing, and maintenance tasks.

Measuring and Layout Tools

Measuring tapes, levels, squares, marking tools, and other products used for measurement, alignment, and layout. Requirements may include range, accuracy, graduations, dimensions, and intended trade use.

Chisels and Specialty Hand Tools

Chisels, punches, pry tools, files, and other specialized products used in woodworking, metalworking, construction, repair, and installation.

TYPICAL APPLICATIONS

- General construction and trade work
- Assembly and fastening
- Measurement and layout
- Cutting and material preparation
- Workshop operations
- Facility maintenance
