SAFETY & PPE

Personal protective equipment and jobsite essentials intended to support workplace safety programs.

SAFETY & PPE

Safety products support workers across construction, maintenance, facilities, workshop, warehouse, and commercial environments. Sigma Traders USA organizes sourcing across selected PPE and jobsite-safety families for business accounts requiring suitable product identification, documentation, packaging, and commercial supply options. The initial category intentionally focuses on general PPE and jobsite essentials. Specialized high-consequence categories, including fall-protection systems, are outside the initial scope unless supported by appropriate expertise, supplier relationships, product documentation, and customer requirements.

PRIMARY AUDIENCES	ADDITIONAL ELIGIBLE AUDIENCES
• Facilities, Maintenance & Commercial Buyers • Construction Contractors & Skilled Trades	• Independent Hardware Retailers & Specialty Dealers • Qualified Ecommerce & Marketplace Resellers

Also available for qualified business accounts, subject to product and channel eligibility.

SAFETY & PPE

Protective Gloves

Gloves for general handling, construction, maintenance, abrasion, grip, cut-related applications, chemical-related applications, and other supported use cases. Selection should consider hazard, material, coating, size, dexterity, protection level, and manufacturer documentation.

Safety Eyewear

Safety glasses, protective eyewear, and related products for impact, debris, dust, splash, or other supported workplace exposures. Lens type, coating, fit, markings, and intended use should be confirmed at product level.

Hearing Protection

Earplugs, earmuffs, and related hearing-protection products for supported workplace environments. Selection should consider noise exposure, fit, attenuation information, communication needs, and applicable workplace procedures.

PRODUCT FAMILIES

SAFETY & PPE

Hard Hats

Protective headwear and related accessories for supported construction, industrial, maintenance, and facility applications. Product class, type, suspension, fit, accessory compatibility, and markings should be confirmed.

High-Visibility Apparel

Vests and related high-visibility products used to improve worker visibility in construction, traffic, warehouse, logistics, maintenance, and commercial environments. Class, color, sizing, garment type, and intended environment should be specified.

General Jobsite Safety Essentials

Selected safety accessories and consumable products used to support workplace procedures, jobsite identification, protection, and routine operations.

TYPICAL APPLICATIONS

- Construction and installation
- Facility maintenance
- Workshop and warehouse operations
- Commercial property services
- Repair and maintenance teams
- Logistics and material handling
- Retail resale
- Eligible ecommerce resale

Information Helpful for a Quote

- Product family - Intended workplace task or exposure - Required size, class, type, or performance level - Applicable product markings or standards, when known - Disposable or reusable requirement - Quantity by size or configuration - Delivery destination and timeframe - Manufacturer part number, if known
